## Executive Summary:

Process Automation Engineer with 2.6 years of experience in REST API testing using Flask and Fast API. Skilled in automation for web, desktop, and SAP GUI applications. Proficient in Python, Robot Framework, and AWS CI/CD pipelines. Strong understanding of Agile methodologies and focused on improving product quality and efficiency.

## Experience:

**Business Core Solution, Chennai** — *Process Automation Engineer*

June 2023 – Present

### Project: SYMPHONY

*(SYMPHONY is an automation tool used for SAP Cloud, browser, desktop applications, servers, ETL, and dashboards.)*

- Built and maintained automation scripts using the Symphony tool to validate functionality and performance across multiple platforms.
- Identified and resolved defects early in the development cycle, improving overall product quality.

### Project: SIMAC (*Automation Consultant*)

- Automated SAP GRC processes to improve accuracy, compliance, and workflow efficiency.
- Developed and maintained ETL pipelines to extract OData, transform datasets, and load results into SFTP servers.
- Implemented automation solutions to streamline end-to-end data processing and reduce manual intervention.

## Education:

- |   |            |
|---|------------|
| • Bachelor of Engineering (BE) - Electronics and Communication Engineering.<br>KSR College Of Engineering. 2018 -2022 | CGPA - 7.9 |
| • HSC - Marutham Matric Hr. Sec.School. 2017-2018   | CGPA - 7.0 |
| • SSLC - Sri Vinayaga Vidyalaya Matric Hr. Sec.School. 2015-2016  | CGPA - 8.5 |

## Skills:

### Programming & Scripting

- **Python:** OOPs concepts, Flask, Fast API.

### Test Automation

- **Robot Framework:** Selenium, Robosapiens, SAP Custom Library, Requests, Operating System, String, RPA Desktop, Excel Library, custom/own libraries
- **Playwright**
- **Tosca**

### Performance Testing

- **JMeter**

### API Testing & Development

- **REST APIs:** Postman, Bruno, Swagger/Open API
- Microsoft Graph API
- SFTP Automation & File Transfers

### Version Control / DevOps

- **GIT Version Control:** GitHub, Bitbucket, Azure DevOps, GitLab

### Cloud Platforms

- **AWS:** Basics, S3, DynamoDB
- **Azure:** Basics, Blob Storage, Vector DB

### Operating Systems

- Windows
- Linux

### Manual Testing

- Test case creation, test planning, documentation.

## Soft skills:

- **Adaptability:** Quickly adjusts to new projects and environments.
- **Time Management:** Efficient in prioritizing tasks and meeting deadlines.
- **Problem-Solving:** Strong analytical ability to identify and resolve issues.
- **Tech-Savvy:** Comfortable using tools like ChatGPT, Copilot, Gemini, and Claude to enhance productivity.

## Hobbies:

- Exploring emerging technologies and modern development practices.
- Building skills in AI tools, automation, development, server management, and deployment workflows.

## Declaration:

I confidently declare that the details outlined above reflect my true professional background and capabilities.
